## **Hide Me Behind The Cross : Poems of Praise & Gratitude**

There are ball bearings strategically positioned in the shaft that move up and down as you swing. This imagine example is different because it would potentially demonstrate the scientific veridicality of precognition or retrocognition and would argue cogently for a concept of time beyond our current point to point present concept in which we do not even know what will happen a second in advance unless there are sensorimotor or logical or electrical or other conventional physical or psychological clues.
